ALEXANDRU IOAN CUZA UNIVERSITY OF IAȘI

FACULTY of ECONOMICS AND BUSINESS ADMINISTRATION

Business Administration

Bachelor's programme

Bachelor

Full time

3 years

ECTS 180

English

Business Administration is structured as a threefold programme, which allows graduates to specialize in one of the following fields: management, marketing or finance. The curricula interlace the quality of the teaching-learning process and the compatibility with the study offer of other European universities in terms of both acquired competencies and diploma. Throughout the three years, students are exposed to an international environment, experiencing interactions with different cultures.

COURSES: *Microeconomics, Macroeconomics, Business Communication and Negotiation, Financial and Strategic Management, Organizational Behaviour*

REQUIREMENTS: ☑ High school diploma or equivalent
☑ B2 English level (minimum)

TUITION FEES: EU citizens: 4000 RON/year
Non-EU citizens: 3500 EURO/year

The programme targets high school graduates willing to study in an international environment and at a level that will facilitate their integration in the international labour market.

FACULTY of
PHYSICS

Physics
Bachelor's programme

Bachelor

Full time

3 years

ECTS 180

English

A bachelor's degree in Physics is for you if you want to know 'how' and 'why' and to thoroughly understand the way the real world works. Through its structure and content, this program cultivates the interest of high school graduates in Physics and Astrophysics and initiates them into the application of the latest technologies to fundamental and applied research.

COURSES: *Classical Mechanics, Introduction to Astrophysics, Physics of the Earth, Optics, Data Processing in Physics and Numerical Methods, Electricity and Magnetism, Electrodynamics and Theory of Relativity, Quantum Mechanics, Solid State Physics, Instrumentation in astrophysics, Astrophysics and Cosmology, Spectroscopy&Lasers*

REQUIREMENTS: ☑ High school diploma or equivalent
☑ B2 English level (minimum)

TUITION FEES: EU citizens: 3000 RON/year
Non-EU citizens: 2500 EURO/year

Physics opens the door for you to a wide variety of careers: from teaching in a high school or working in a lab to conducting research in observational and experimental astrophysics.

Applied Modern Languages - Translation and Interpreting

Bachelor's programme

Bachelor

Full time

3 years

ECTS 180

English/
French/
German

If you are an avid foreign language learner and you are interested in their applied study in interlingual communication in various fields and contexts, Translation and Interpreting is ideal for you! You can study translation and interpreting in a combination of two of the following foreign languages: English, French and German.

The curricula strike a balance between practical training and theoretical background in translation studies and related disciplines. Our aim is to train specialists with strong communication skills, able to interact in plurilingual and multicultural environments.

COURSES: *Information Technologies for Translators, Discourse Analysis and Practice, Institutional Communication and International Relations, Intercultural Communication, Text Translation Practice, Introduction to Interpreting, Specialized Translations (legal, economic, scientific, medical, etc.), Evaluation, Revision and Post-editing of Translations, Subtitling.*

REQUIREMENTS: ☑ High school diploma or equivalent
☑ B2 language proficiency (minimum)

TUITION FEES: EU citizens: 4700 RON/year
Non-EU citizens: 2400 EURO/year

Multiple career options: technical and legal-administrative translation in companies, literary translation for publishing houses, interpreting in international organizations, at congresses or tourist agencies, teaching, subtitling in the audiovisual media or multimedia.

Computational Linguistics

Master's programme

Master

Full time

2 years

ECTS 120

English

This Master's programme targets bachelor graduates in Computer Science and Philology, and it has been designed to synergise and deepen their existing knowledge of these two fields.
Computational Linguistics is an inter-disciplinary field that ties together Computer science, Artificial Intelligence, and Linguistics.
The curricula combine basic knowledge of computer science and philology with specific precepts from the above mentioned fields, offering students both general and specific knowledge and competencies as well as the ability to expand their cognitive skills in complementary inter-disciplinary domains.

COURSES: *Computational Lexicology, Morphology and Syntax, Innovative Applications of Natural Language Processing, Speech Processing and Fuzzy Systems, Script Languages, Data Mining, Automatic Translation, Virtual Assistants*

REQUIREMENTS: ☑ Bachelor's degree or equivalent qualifications
☑ B2 English level (minimum)

TUITION FEES: EU citizens: 3900 RON/year
Non-EU citizens: 3800 EURO/year

Take a deep dive into Computational Linguistics - a rapidly growing field with exciting new career opportunities!

Advanced Studies
Master's programme

Master

Full time

2 years

ECTS 120

English

The main objective of this master's degree programme is the development of advanced skills in conducting independent research. Most of the graduates continue their research work by pursuing a doctoral degree.
Admittance criteria are rather demanding. Candidates are accepted based on the presentation of a research plan, to be conducted under the coordination of an academic supervisor. At the end of each semester, the master students deliver a presentation of their research outcomes and their activity is constantly monitored by their academic tutors. The main perk of the master's programme is that students can choose the elective subjects that align with their future career goals, interests and academic strengths.

REQUIREMENTS: ☑ Bachelor's degree or equivalent qualifications
☑ B2 English level (minimum)

TUITION FEES: EU citizens: 3900 RON/year
Non-EU citizens: 3800 EURO/year

A stepping-stone in building your academic career!
